

Singapore's Premier Oasis On The Padang

Dear Member,

There comes a time when an opportunity arises to transform for the better.

This is such a time for the Singapore Recreation Club to cement its place in its long and illustrious history for the future.

Since our founding in 1883, we have become an establishment that fosters camaraderie through sports and recreation and a highly respected custodian of one of Singapore's landmarks, the Padang.

As we celebrate our 141th anniversary this year, we have an added reason to transform our beloved club and restore its former glory for the future.

Our plans for SRC Transforms 2024 include a comprehensive redevelopment programme that will chart the club's journey forward.

But why now, you may ask?

1. Facilities are old and debilitated, resulting in structural problems, which we must address for safety reasons. Piecemeal repairs are overly expensive, besides disrupting members' activities.
2. While the human elements at SRC remain strong, the hardware—our facilities, buildings, and sports fields—has seen better days and needs rejuvenation. In short, the club has become too old and is now a pale shadow of what it was and what it can be.

So, the pros outweigh the cons when considering why SRC should go forward with the SRC Transforms 2024 plans.

And, in case you think the transformation will only benefit some, I've news for you.

Our plans will touch on every aspect of the club and significantly improve every facet. When completed, they will create an environment that we can not only enjoy but also be immensely proud of.

Moreover, it will undoubtedly increase the value of our memberships even if you don't frequent the club regularly.

Besides the facilities, food and beverage outlets and banquet spaces will be tastefully designed to provide a classy ambience catering to the wish lists of young and old members.

More importantly, this transformation will not cost a King's ransom.

With flexible payment schemes, this transformation plan comes at a very reasonable cost to each Member.

But all this vision to keep up with our nation's progress into the future will only be a vision without your support.

Come vote for SRC Transformation 2024, **24 March** to **26 March** and make a difference.

Continue as a club struggling with our deficiencies, or be part of something exciting that increases the value of our memberships.

It's all up to you.

Thank you.

Sincerely,
Chang Yeh Hong
President
Singapore Recreation Club
