

F&B

ORDER-TO-ACCOUNT

EMBRACING DIGITAL TRANSFORMATION WITH GREEN INITIATIVE!

Singapore Recreation Club has implemented digital transformation initiative coupled with a green agenda to enhance our services.

You can now conveniently use your smartphone's camera to scan the table QR code to access our menu and place orders.

You will be required to input your membership number and email address for confirmation and your orders will be promptly transmitted to the kitchen for processing.

When settling your bill, one of our crew members will verify your orders and bill with your signature. The bill will be then charged to your Statement of Account with a digital receipt promptly sent to your email.

We kindly request your cooperation as we embark on this phase of transition together. This transition encompasses:

- Reduced waiting times, optimizing manpower
- Conservation of trees by minimizing paper usage
- Provide clear allergen and dietary information in the remarks
- Environmentally sustainability
