

Transition to E-Statements

Dear Members,

In our continued effort to adopt more environmentally friendly practices, we will be phasing out hard copy statements and transitioning to e-statements starting from December. Your **November** statement of account will be sent as an e-statement by default.

To ensure a smooth transition, we kindly urge all members to **update or provide your current email address** by writing to mship@src.org.sg before December. If we are unable to reach you via email, a **\$1 fee per statement** will apply for each hard copy issued.

For members who still prefer receiving hard copy statements, you may state your preference by contacting billings@src.org.sg. Please note that a nominal fee of \$1 per statement will be charged.

We hope to receive your full support as we move forward with this important green initiative.

Thank you for your cooperation.
