

Membership Fee Apportionment For Long-Term Club Viability

Dear Members,

Following from the Annual General Meeting held on 26 April 2025, the club will set aside \$15 from each transferable member's existing monthly subscription fee into a dedicated redevelopment fund.

Why Now?

The Club has to maintain good governance process for renewal of the club's lease. We need to ensure that from time to time, we have funds to handle major repairs and has sufficient funds to renew the lease in 2052 without taxing the members.

The apportionment will commence with effect from July SOA.

Please contact our Finance department at 6595 0517 / 0540 / 0561 / 0524 (during office hours) should you require further clarification.
