

## **Update on Legal Claim Filed Against the Club and 127th Management Committee**

The Claimants' application for an injunction to halt the renovation works of the co-working space was dismissed with cost by the Court on the 9th of March.

The MC is gratified that the court has taken the view that halting works to the co-working space is neither justified nor in the interests of the Club and its members.

The MC remains committed to completing the club's transformation in accordance with the resolutions passed by members.
