

"This isn't just a facelift, it's a leap forward.

As the Padang Civic Ensemble stands poised for UNESCO recognition, we, too, rise to the occasion, transforming our haven into a beacon on the world map.

Welcome to the next chapter of our extraordinary story."

Shaping our Next 30 Years

1884

1905

An aerial photograph of a harbor filled with numerous sailboats. In the foreground, there is a large, light-colored building with a flat roof and several arched openings. A paved area, possibly a parking lot or road, is visible in front of the building. The background shows a distant shoreline with trees and hills under a clear sky. The year '1931' is overlaid in the center of the image.

1931

1986

1997- Present

An aerial view of a modern city skyline, likely Singapore, featuring a prominent green park area in the foreground and a dense cluster of skyscrapers in the background. A large white spiral graphic is overlaid on the left side of the image. The sky is a mix of blue and green, suggesting a digital or futuristic theme.
